

Yiğithan Öztürk

Jr. Full-Stack Developer

Location :Zonguldak/Turkey

Email: yigithanozturk.dev@gmail.com

www.linkedin.com/in/yigithanozturk/ / github.com/YigithanOzturk / <https://yigithanozturk.github.io>

Passionate about technology since childhood, I aim for excellence in every project. Fast learner with strong work ethic, quickly adapting to new technologies and contributing to team success.

EDUCATION

Computer Engineering, Bülent Ecevit University,

Zonguldak, Turkey

GPA: 2.82/4

2020 - 2024

Graduation Project: Developed a QR code-based attendance system using a website, Flutter mobile app, and MySQL database, featuring attendance tracking, history viewing, and academic note & announcement sharing.

CERTIFICATES

IoT (Internet of Things) - Zonguldak Bulent Ecevit / **Digital Leadership** - Galatasaray University

SKILLS

Frontend: HTML, CSS, JavaScript, React, Next.js, Flutter

Backend: Python, C#, .NET

Databases: MySQL, PostgreSQL, Prisma

Tools & Platforms: Git, Linux, Node.js, Docker

LANGUAGE: Turkish (Native), English (Intermediate)

EXPERIENCE

Internship - 2M Kurumsal AZETech Bilgisayar Yazılım San. Tic. A.Ş

Front-end Developer: Created and edited websites using HTML, CSS, and JavaScript.

Hardware Maintenance: Performed maintenance, assembly, and installation of computers and servers.

Network Operations: Implemented SNMP technology for data transfer and printer monitoring.

PROJECTS

Portfolio Website – Personal Branding (Next.js, TypeScript, TailwindCSS): Designed and deployed a responsive portfolio site with sections for About, Projects, and Contact. Focused on performance, accessibility, and modern UI/UX to reflect a professional profile. **Source:** <https://yigithanozturk.github.io>

EasyYTD V2.0 – Desktop App (Python, Tkinter): Developed a desktop application to download videos and audio from multiple platforms. Integrated resolution selection, fast downloads, and a clean interface for enhanced usability.
